

SCHOOL ASSEMBLY

A school assembly is a gathering of all or part of a school for any variety of purposes, such as special programme or community communication information on a daily bases. Morning assembly sets the tone of the school, for the day. Students can also be directed and motivated in a school assembly.

- School Assembly is a daily programme.
- This process occurs on a particular decided time.
- Teacher helps the students to stand in rows.
- Yoga & meditation are becoming a part of school assemblies.
- Students gather to platform common stage and to receive common announcements.

WORKSHOP FOR STUDENTS

In Ganga International School, a workshop about life skill was organized for students and teachers. Mr. Kalit was the resource of this workshop. He explained, how the overall development of the students can be done.

He explained 3 skills -

Thinking Skills

Social Skills

Emotional Skills

After this, we all realized how these skills can improve students objectives and the methods used to improve students confidence.

Life Skills are abilities for adaptive and positive behaviour that enable humans to deal effectively with the demands and challenges of life. This concept is termed as PSYCHOSOCIAL COMPETENCY.

QUIZ COMPETITION

A quiz is a form of game or mind sport in which the player (as individuals or in teams) attempt to answer questions correctly. It is a game to test your knowledge about a subject, knowledge, abilities and skills.

A quiz competition was organized by Ganga International School with a good participation of students.

Topic - Animal Organization

Inauguration was done by Ex-Principal Dr. R.K. Tiwari. He motivated students by her inspiring speech. He remarked these types of competitions will arise competitive spirits in students. Quiz competition was held and students answered in a good way.

SCIENCE EXHIBITION

Science Exhibition was organized in Ganga International School with the help of NCIT. Student presented models on environment, energy, cleanliness and maths.

Two dozen students were participated in exhibiting the models and parents were also invited. Students explained their models interestingly with the support of their teachers. Hindu Parishad Minister - Rajesh Tiwari viewed the models and congratulated the students.

SCHOOL EXPERIENCE

The school teaching experience allows one to put everything that we have learnt about education and subject matter in action.

We got the opportunity to test what we learnt under the supervision of an experienced teacher who can guide us along and help us to become the kind of teacher we want to be.

We embraced the opportunity and we learnt a lot from the experience.

Prepare for unexpected while student teaching.

During my student teaching experience I spent a lot of time preparing plans. I worked hard to research different ways to present the information for each lesson. I realized that I needed to prepare as much as possible, but more importantly I needed to prepare to be flexible. We never know what is going to come up or ~~what~~ what catch the students attention. When creating lesson, we need to be prepared for this. We must figure out alternative in order to help our day go as smoothly as possible.

and allow students to gain most from the lesson.

As I talked to other teachers they had plenty of suggestions for activities that I could use.

I loved getting ideas that they could provide to help me grow as a teacher.

"Dare to disturb the Universe"

Be Fearless, we should not be afraid to do something different or to think outside of the box. What I found was that student taking was the perfect time to think outside of the box and try different things.

If they did not work, at least I got to try them in a safe environment.

And in the process, I got to work on vital skills for teaching such as classroom management. Confidence is crucial for a great need to see that their teacher knows what she is talking about, they need a teacher that demands respect.

Immersing yourself and taking advantage of every opportunity afforded can really enrich student teaching experience.

One of the most important lesson that I learnt was the importance of feedback. During student teaching experience, one wants to find ways to improve teaching skills.

Don't be afraid to ask cooperating teacher for advice.

More than just asking for feedback. One needs to have a good attitude about the information that we receive.
